

More than a Contact Cleaner,

DeoxIT[®]'s Unique Formulation, Chemically Improves Connections.

Problem with contact cleaners:

- ▶ Solvents flush away surface contamination but do not solve the problem.
- ▶ Can not remove surface oxides and sulfides, the major cause of decreased performance & failures.
- ▶ Most are not safe on plastics.
- ▶ Low cost but high waste.

DeoxIT[®] Solution:

- ▶ Does not require solvents
- ▶ Active ingredients chemically dissolve surface contamination (oxides and sulfides) without harm to metals and plastics.
- ▶ Increases conductivity (without causing shorts).
- ▶ Seals & protects the surface.
- ▶ No waste - safer for the environment
- ▶ It Works, when others do not!
- ▶ See reverse side for other benefits.

Bottom Line - Improves the performance & reliability of ALL equipment & parts!

"CONTACT CLEANERS KEEP TRYING"

Recently, a rep from another chemical company sent me a sample can of their new contact cleaner, promising to "blow away DeoxIT[®] D5, at a cheaper price". I moistened a swab with THEIR cleaner, and took it to one-half of the dirty edge connector pads on a nasty looking PCB. It barely touched it. I repeated the process with DeoxIT[®] D5. It removed the oxidation immediately and the device has worked perfectly ever since.

Why Buy It:

- ▶ Works when others do not.
- ▶ Improves performance & reliability.
- ▶ No waste, safer for the environment.
- ▶ Save money. Prevent return service calls for the same problems.
- ▶ Used by those who demand the best.

Which Product Do I Use:

- ▶ Use the **DeoxIT[®] contact cleaner** on surfaces that have been in service or have visual signs of oxidation. Contains 20% active cleaner.
- ▶ Use the **DeoxIT[®] GOLD conditioner** on new surfaces, and gold plated surfaces. Ideal for preventing dendrite/fretting corrosion. Protects both surface and base metals. Contains 1% active cleaner.
- ▶ Use the **DeoxIT[®] SHIELD** to protect surfaces from severe environments (humidity, salts, pollutants, sulfur, etc.). Use on clean surface. Contains 0% active cleaner.

Which Applicator Do I Use:

- ▶ Use the applicator that provides the most convenience, compatibility and economy.

How to Buy It:

- ▶ Contact your Distributor directly for product information and ordering.
- ▶ Visit our website, www.deoxit.com, for a list of industrial and retail outlets.
